25X1

1. With the departure of [redacted] set for 27 June and with the expectation that [redacted] will be called to active duty as an officer on about 1 August, the Personal Equipment Section will be reduced to one airman, [redacted]. We do not anticipate that a crisis will arise as a result of this reduction, especially if flights continue to be spaced well apart. In addition, [redacted] of [redacted] has agreed to perform as needed the suiting-up and other functions normally performed by airmen in the PE Section.

25X1

2. Although ideally we should prefer to have another airman assigned to the section, it would appear that clearance and processing time would be too lengthy to justify such a request. This dispatch is simply to bring the impending situation to your attention, so that you may give some thought to the possibility of emergency assistance in this department later.
